

Project Initialization and Planning Phase

Date	15 July 2026
TeamID	SWUID2026221635
ProjectName	A Comprehensive Measure of Well-Being (HDI Prediction & Analysis)
MaximumMarks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A policy researcher and development analyst.	Predict future country-wise HDI scores by adjusting public health, education, and economic target parameters.	I do not have programming skills to build or run complex machine learning algorithms locally.	I only have access to static, outdated spreadsheets that cannot perform dynamic "what-if" projection analyses.	Anxious about the accuracy of our upcoming policy recommendations and frustrated by the slow planning process.
